

Figure 1 is my sample figure.

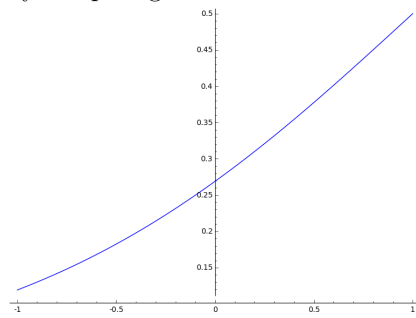

Figure 1: $A = 1$, $K = 1$, $Y = 1$

If you let A bigger, you will find the value is larger in y-axis

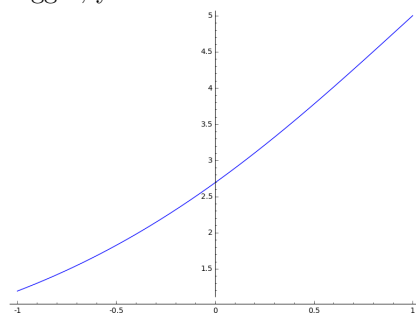

Figure 2: $A = 10$, $K = 1$, $Y = 1$

If you let K bigger, you will find the value of would increase quickly than 1

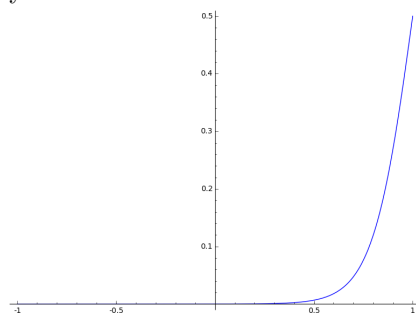

Figure 3: $A = 1$, $K = 10$, $Y = 1$

If you let Y bigger, you will find the shape shift right

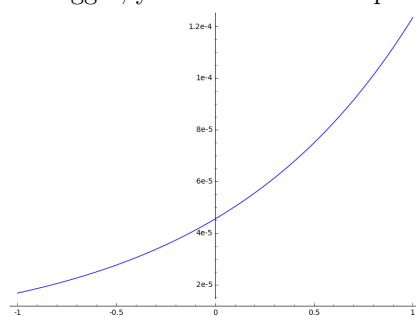

Figure 4: $A = 1$, $K = 1$, $Y = 10$
